- Experience in aircraft integration of sensors and radios
- Investigation, transfer, and application of COTS communication and IP technologies in support for the law enforcement, SOF, and IC missions
- ISR system engineering and integration
- Systems engineering and technical assistance with regards to integrating multiple disparate systems
- Live field experimentations - OCONUS operational testing in austere and combat environments
- Training and courseware development
- Integration of sensors, radios, Internet protocol technologies
- Innate ability to apply leading edge technologies to operational requirements
- Military surveillance experience and training
- Experience in working throughout the United States and overseas

### Construction:

- Total Corporate Construction Experience 50+ years
- Past performance with the FBI both at HQ & The Academy and NSA
- 3+ Years experience working with Department of Justice
- FBI Green Badge Holders
- Understanding of the "Mission" and what it takes to work in occupied facilities
- Relationships with subcontractors who are cleared with the FBI and NSA

### VALUE ADDED RESELLER (leading edge law enforcement sensors and radios) (including Mesh Radios and Expanded Band LTE cell phone radios)

- Providence Global – Specialized law-enforcement and surveillance equipment
- Claresys – Covert surveillance lens solutions
- Abside Networks - LTE Radios in government frequency bands
- Motorola - Radios
- Cisco Systems – Enterprise Networking and Security Equipment
- xFold - UAV / Drone Systems
- Axis Communications – Camera and video management solutions
- Google Apps – Enterprise cloud applications
- Southwest Antennas - Specialty antenna engineering and manufacturing
- Computers, servers, wireless access points and other computer hardware

## CUSTOMERS:

- Cincinnati Veteran Affairs Hospital – Installed / integrated wireless nurse call system
- Supported DOE experiment exercises.
- Supported SOCOM Trident Spectre experiment for 2009, 2010, 2011, 2012
- Supported SOCOM OCONUS In-theater operational assessments
- Worked with and provided technical feedback to the following organizations: Department of Justice, Naval Special Warfare, Naval Research Lab, National Reconnaissance Office, Army Research Lab, Air Force Research Lab, Department of Veterans Affairs
